

Golden Ball of Divine Grace

The phenomenon of the Oneness Blessing/Oneness Deeksha is sourced in the descent of the “Golden Ball of Divine grace”, a mystical golden orb of light, into which Sri Amma Bhagavan had impregnated their divine consciousness since early childhood through a very esoteric process. In July 1989, this Golden Ball of divine grace descended into many children of the Jeevashram School founded by Sri Amma & Bhagavan. With the descent of the Golden Ball, these children were instantly transported into deep mystical states of consciousness and experienced profound transformation, thus heralding the birth of a phenomenon Sri Amma Bhagavan had been waiting for over nearly four decades.

The Golden Ball of Divine grace embodies the divine intent of Sri Amma Bhagavan, namely ‘to set man totally and unconditionally free’ and it is this intent that powers the Oneness Blessings/Oneness Deekshas worldwide. Oneness Blessing/Oneness Deeksha is essentially the process of facilitating the descent of this Golden-ball, which naturally activates a neurobiological process in the receiver’s brain, thus culminating in a spiritual awakening. In addition, it also activates the seven energy centres (chakras) in the subtle body and the dormant spiritual energy (kundalini), which constitutes the basis of every form of transformation in life, mundane as well as spiritual.

The Oneness Temple is specially constructed to facilitate the descent of this Golden Ball of divine grace into people, thus awakening them to higher levels of consciousness. Built in accordance with esoteric principles drawn from numerous ancient sciences of different traditions, its special structure serves as a very natural preparation for people to open up to this divine descent, thereby opening the doors to an infinite variety of miracles ranging from healing of ailments, setting right of relationships, material abundance and success in life to inner fulfillment, altered states of consciousness, awakening into oneness and finally, God-Realisation. The transformative effects of the Oneness Temple on people’s lives as well as human consciousness as a whole would be far reaching, catering to growth and development in practically every aspect of life.

Sri Amma Bhagavan being the source of this divine phenomenon, their physical presence at the time of consecration holds immense significance, as it would greatly augment the descent of the golden ball into all those who meditate in their presence, making it a ‘once in a life time experience’ for eons to come.

While generations to come shall venerate and experience the benefits of this phenomenon, it would indeed be an unforgettable historical event for those of us physically present on this auspicious occasion of consecration & to have witnessed the formal installation of the Golden Ball of Divine Grace in the Oneness Temple by Sri Amma Bhagavan themselves. Above all, it is once in a few millennia that humanity gets to experience a spiritual phenomenon of this magnitude!

We welcome each and every one of you to participate in the consecration ceremony of the Oneness Temple and experience the divine grace of Sri Amma Bhagavan.
